LPO-50	-	6	Napalm	1	15	70	-na-

UZI-IX65

Arete: 3

Quintessence: 10 / clip (3)

Background Cost: 4

Description: The Technocratic UZI is a newer weapon being used by more NWO and Iteration X agents for heavy operations. It was created by the Q division as a support weapon for HIT MARKS.

This device have a special settings (powers).

The weapon is UZI shaped with a barrel that retracts for the setting.

3 ten point quintessence packs are distributed with each weapon.

Special Power

Endless Uzi of Death (Matter 4, Prime2). This essentially allows the user to fire the UZI as a standard uzi, on full auto, three round burst, or single shot, for as many turns as the Quintessence pack holds out. Whenever the clip runs dry, the device automatically creates more ammo for 2 Quintessence per use.

Coincidental or Vulgar -- ST's descretion.

UZI IX-66a

Arete: 5

Quintessence: 10 / clip (4)

Background Cost: 10

Description: This UZI is a newer version than the UZI described above.

This device have four settings (powers). The weapon is UZI shaped with a barrel that retracts for one setting and lots of tybes and wires on the outside of it. Four ten point quintessence packs are distributed with each weapon.

Powers

High-Intensity Matter-disruption Setting (Forces 4, Prime 2)

This setting causes a black laser to shoot forth from the barrel in a straight line. This laser causes non-soakable (except with vulgar Life magick) Aggravated damage by Arete (Don't forget the extra success for Forces).
Vulgar: 2 quintessence / shot.

High-Intensity Mass Matter-disruption Setting (Forces 5, Prime 4)

This setting causes the barrel to draw into the uzi and expose the laser diode so that a cone of death is created in front of the user. Anyone within 100 yards, 60 degree area takes two dice worth of non-soakable (except, like before, with vulgar Life Magicks) Aggravated damage (don't forget the extra success for forces).
Vulgar: 5 quintessence per shot.

High Intensity Cutting Laser (Forces 2, Prime 2).

This setting closes the barrel tightly so that the diode emits a finely tunes laser that cuts through all inorganic matter like a knife through butter. It causes only one health level per round to living creatures, but leaves horrible deep scars.
Vulgar: 1 Quintessence per use.

Endless Uzi of Death (Matter 4, Prime2).

This essentially allows the user to fire the UZI as a standard uzi, on full auto, three round burst, or single shot, for as many turns as the Quintessence pack holds out. Whenever the clip runs dry, the device automatically creates more ammo for 2 Quintessence per use.
Coincidental or Vulgar -- ST's descretion.

IX-VINGAT-16 "Vindicator"
